ESTATE DISSOLUTION

When a property owner dies, loved-ones are often faced with the immense undertaking of liquidating the deceased's belongings and getting the home ready for sale. Abode Staging will ease the burden on family members as follows:

- Help distribute bequests to beneficiaries
- Guide you in sorting and de-cluttering
- Make suggestions to improve the property's curb appeal and to prioritize the minor repairs that will increase the home value

We will manage as much or as little of the process as you want in order to provide you with peace of mind. A professionally staged home by Abode Staging can usually be sold quickly and for a higher price.
