HOME STAGING

Are you unsure if you should sell your house as it is or if you should do some improvement? Then which renovation should you prioritize to get the better return on your investment? It looks like so easy in TV shows, but now everything add up. Imagine having a home stager expert guiding you and telling you where it worth spending some money so you can do more money when selling your house.

As a professional in this field, my ultimate goal is to create a living environment that is both visually and physically appealing to potential buyers. Essentially, I want to present your home in the best possible light so buyers will notice all the positives characteristics your home has to offer.

I will guide you through the following procedures: cleaning, decluttering, repairing, rearranging, and updating the house and its contents. Our vast expertise will save you precious time and money and as a result, your house will sell faster and at a much higher asking price.

“Valerie Huard gave me sensible, practical advice on how to get my home ready for sale. My real estate agent loved the results so much that she decided to ask a much higher selling price than originally planned -- twenty thousand more! And Valerie was so friendly and easy to work with. Highly recommended!” MB
